All-In-One solutions, which is affordable & still easy to use. The best thing: It can be tailored to meet your company's needs. 2.000.000 Odoo users have ...

What is Odoo OpenERP

OpenERP Objects ¶ All the ERP's pieces of data are accessible through "objects". As an example, there is a res.partner object to access the data concerning the partners, an account.invoice object for the data concerning the invoices, etc... Please note that there is an object for every type of resource, and not an object per resource.
