How I Built This with Guy Raz : NPR

As with Project #1, we will begin building and get the job done without a lot of fanfare in advance. This is where we are today, and we look forward to sharing the exciting news about these projects soon. PROJECT 1 : Sunland Park, New Mexico STATUS: COMPLETE COST: Estimated \$6-\$8 MILLION - FINAL COST TBD

Fundraiser by Brian Kolfage : We The People BUILT the Wall!

At six inches (15.2 centimeters) in diameter, the device, which Roy calls a "wingless electromagnetic air vehicle" (WEAV), will truly be a flying saucer. Theoretically, Roy says, the flying saucer can be as large as anyone wants to build it, because the design gives the aircraft balance and stability.

What Would a 21st Century Battleship Look Like?

But according to Millis, Icarus isn't a definitive, catch-all prediction of what an interstellar craft might look like. It's simply the design that might make sense to build first. We asked Millis, who once led NASA's Breakthrough Propulsion Physics Project, to take us through the basics of starship design.

What Would a Starship Actually Look Like?

At the end, when all was said and done, they had an ark. Look what we built dad. That was the only thing that mattered. The rest of the world had nothing ultimately. Their life was one of building an ark. A life built upon the foundation of Jesus Christ is the only thing that matters.

Look Dad, We Built An Ark - KJV BIBLE TRUTH
